

Award WINNING

Ocean Way Audio Sausalito™

"Sausalito is a beautifully designed, high quality, efficient, distortion-free loudspeaker with extremely wide dynamic range." ALLEN SIDES

- Refined three-way design with signature midrange and high frequency balanced design
- High resolution 1" silk domed HF driver with excellent mechanical linearity
- Geometrically reinforced 8" aluminum cone mid-range driver
- Cast frame 12" aluminum cone woofer producing extended and detailed low end response to 27 Hz.
- Pinpoint imaging, clear definition and sonic delicacy producing broad life-like dynamics
- Perfect physical time alignment of all components

Listen to the thrilling sound qualities of Sausalito and sense the beauty of music.

Ocean Way Audio Sausalito™

SPECIFICATIONS & PRODUCT DETAILS

Ocean Way Audio's award-winning **Sausalito** is a beautifully designed, high quality, efficient, distortion-free loudspeaker with wide dynamic range.

Five time Grammy® Award winning Allen Sides has personally recorded over 1,000 albums, many of which have become audiophile classics. He has worked with the finest and most famous artists of the last 30 years. Albums recorded in Mr. Sides' studios have sold hundreds of millions of copies. Allen's hearing capabilities enables our engineers to translate every sonic nuance, bringing a new dimension and understanding to what is possible in high-end speaker design. His ears are our final design tool.

Sausalito allows the listener to move around the room and hear the same natural, open and accurate image. Its highly refined three-way reflex design incorporates our signature midrange and high frequency balanced design. We braced the loudspeaker's interior minimizing cabinet flexing, reducing baffle reflection resulting in minimum low frequency resonance. The cabinet's sleek, contemporary design beautifully maintains time alignment. The system can be driven by a single amplifier with an option for bi-wiring.

Our HF driver is encased in ferrofluid, yielding increased power handling capacity and dampening resonance in the dome for a silkier, natural sound. The MF driver is geometrically reinforced aluminum cone with a vented cast aluminum chassis yielding optimum strength and low compression. Our LF driver delivers tight, accurate bass you can feel. All component parts are chosen through rigorous listening trials.

As with every Ocean Way Audio speaker, **Sausalito** has our signature pinpoint imaging, clear definition, sonic delicacy and shocking dynamics can be heard from a whisper to shattering crescendo.

Listen to the thrilling sound qualities of **Sausalito** and sense the beauty of music.

Specifications

Recommended Powered	100 watts/channel	Frequency Range	28Hz-24kHz +/- 3dB
Amplifier	Single amplifier or bi-wiring	Efficiency	85dB SPL re: 1W @ 1 Meter
Driver Configuration	3-way reflex	Enclosure	High Gloss or Hand Rubbed Satin Piano Finish
HF Driver	1" Silk fabric dome / Ferrofluid	Dimensions	42"H x 16"W x 22"D
MF Driver	8" Aluminum cone	Weight	148 lbs.
LF Driver	12" Aluminum cone
