

# Stunningly ACCURATE

## Ocean Way Audio Eureka™

*From the Experience and Talents of Five-Time Grammy Award-Winning Engineer/ Producer/Studio Owner/ Designer ALLEN SIDES: "Eureka has our signature pinpoint imaging, clear definition, sonic delicacy and shocking dynamics that can be heard from whisper quiet to shattering crescendos."*

- Outstanding dynamics, clearly defined, balanced sonic imagery
- Detailed attention to physical time alignment, reduced baffle reflections
- Optimized woofer low extension and sound pressure level capacity
- High end drivers and components chosen through rigorous listening trials
- Greater detail and refinement, no conventional speaker of its size can rival
- True audiophile value, distinguish yourself based on quality and performance
- Listen to the thrilling sound qualities of Eureka and strike gold!

# Ocean Way Audio Eureka™

## SPECIFICATIONS & PRODUCT DETAILS

**Eureka** joins the Ocean Way® Audio family as a beautifully designed, high quality and affordable loudspeaker. Our engineers have achieved new ways to reproduce greater detail and refinement in a smaller physical design. We've innovated superior ways of reproducing music with realism and vitality.

Five time Grammy® Award winning Allen Sides has personally recorded over 1,000 albums, many of which have become audiophile classics. He has worked with the finest and most famous artists of the last three decades. Albums recorded in Mr. Sides' studios have sold hundreds of millions of copies. Allen's hearing capabilities enables our engineers to translate every sonic nuance, bringing a new dimension and understanding to what is possible in high-end speaker design. His ears are our final design tool.

The effects of our careful engineering are impressive, and resulted in outstanding dynamics, precision of delivery, clearly defined sonic imagery that no conventional speaker of its size can rival. **Eureka's** cabinetry is available in a variety of finishes making **Eureka** appropriate and accessible in your choice of listening environments.

While maintaining the distinctive recognizable form of our award winning Sausalito, **Eureka's** size is physically smaller, while maintaining substantial bass response. The cabinet walls are braced to create a very inert enclosure. The same drivers are found in our other high end speakers with all parts chosen through rigorous listening trials.

In a crowded field, the **Eureka** demonstrates true value allowing the audiophile to distinguish themselves based on quality and performance, not price. As with all Ocean Way Audio speakers, **Eureka** has our signature pinpoint imaging, clear definition, sonic delicacy and shocking dynamics that can be heard from whisper quiet to shattering crescendos.

Listen to the thrilling sound qualities of **Eureka** and you'll strike gold!

### Specifications

Recommended Powered	50 watts/channel	Efficiency	87.5dB SPL re: 1W @ 1 Meter
Amplifier	Single amplifier or bi-wiring	Enclosure	Veneer, High Gloss Piano, or Laquer finish
Driver Configuration	2-way reflex	Height	17.5"
HF Driver	1" Silk fabric dome / Ferrofluid	Width	11.5"
LF Driver	8" Aluminum cone	Depth	17.5"
Frequency Range	35Hz-24 kHz +/- 3db	Weight	45 lbs.
